

Kuali Coeus Version 3.0 Release Notes

Date: November 5, 2010

Copyright © 2010 Kuali Foundation, Inc.

Purpose

The purpose of this document is to summarize the major changes and enhancements included in this latest software application system release version.

What's New in This Release?

New functionality: IRB Module

Release 3.0 includes the first version of the Institutional Review Board (IRB) Module. The current release allows a Principal Investigator to:

- Create, amend, and renew a protocol for work with human subjects
- Submit protocols for review and approval
- Reguest status changes to existing protocols
- Notify the IRB office on protocol actions

This release also allows an institution's Human Subject Protection Program to:

- Create and maintain IRB committees and members
- · Generate meeting schedules, agendas, and minutes
- Route protocol to reviewers
- Manage formal correspondence and notifications
- Create custom questions and questionnaires using branching logic

Fixes and Enhancements: Proposal Development and Award

Release 3.0 includes the following fixes and enhancements to existing modules:

Note that for some proposal development print forms, data issues were addressed, but changes in the stylesheets may be forthcoming in the next release.
